Blood Cell Basics Activity – Blood Cell Math Worksheet

Remember that a blood is made up of four different things:

- Water – 50%
- Red blood cells – 44%
- Plasma – 5%
- White blood cells – 1%

Directions

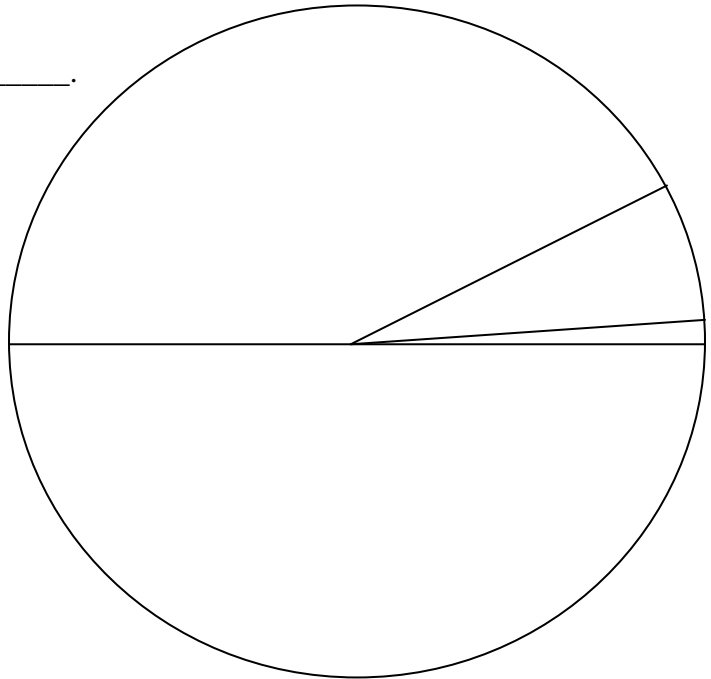

1. Label each section of the pie chart with the correct part of blood (listed above).
2. Next, color the pie chart with a different color for each part of the blood. Write the colors you used here:

Water is colored _____.

Red blood cells are colored _____.

Plasma is colored _____.

White blood cells are colored _____.

3. What makes up the most of your blood? _____
4. What makes up the least of your blood? _____
